State of Kansas: Financial Audit of Fiscal Year 2008

Report Highlights

February 2009

Audit Concern

State law calls for an annual financial audit of the State. The results of the audit are presented in three parts--this report to the Legislative Post Audit Committee, the Annual Financial Report of the Division of Accounts and Reports, and a special report to federal granting agencies.

Key Facts & Findings

 The auditors reported on several matters required by professional audit standards, such as the auditors' degree of responsibility, accounting policies, and discussions with management.

This audit was conducted by the joint venture of Allen Gibbs & Houlik and Berberich Trahan & Co., under contract with the Legislative Division of Post Audit. **AUDIT QUESTIONS:** Financial audits done in accordance with government audit standards look at (1) whether the audited organization's financial statements are fairly presented in accordance with applicable accounting principles, (2) whether there are any significant problems with the organization's internal controls, and (3) whether the organization complied with applicable legal requirements.
