## Legislative Division of Post Audit

THE LEGISLATIVE POST Audit Committee and its audit agency, the Legislative Division of Post Audit, are the audit arm of Kansas government. The programs and activities of State government now cost about \$8 billion a year. As legislators and administrators try increasingly to allocate tax dollars effectively and make government work more efficiently, they need information to evaluate the work of governmental agencies. The audit work performed by Legislative Post Audit helps provide that information.

We conduct our audit work in accordance with applicable government auditing standards set forth by the U.S. General Accounting Office. These standards pertain to the auditor's professional qualifications, the quality of the audit work, and the characteristics of professional and meaningful reports. The standards also have been endorsed by the American Institute of Certified Public Accountants and adopted by the Legislative Post Audit Committee.

The Legislative Post Audit Committee is a bipartisan committee comprising five senators and five representatives. Of the Senate members, three are appointed by the President of the Senate and two are appointed by the Senate Minority Leader. Of the Representatives, three are appointed by the Speaker of the House and two are appointed by the Minority Leader.

Audits are performed at the direction of the Legislative Post Audit Committee. Legislators or committees should make their requests for per-

formance audits through the Chairman or any other member of the Committee. Copies of all completed performance audits are available from the Division's office.

The Legislative Division of Post Audit supports full access to the services of State government for all citizens. Upon request, Legislative Post Audit can provide its audit reports in large print, audio, or other appropriate alternative format to accommodate persons with visual impairments. Persons with hearing or speech disabilities may reach us through the Kansas Relay Center at 1-800-766-3777. Our office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday.

**SUPPLEMENT TO THE PERFORMANCE AUDIT:  
OFF-CAMPUS VOCATIONAL EDUCATION COURSES  
OFFERED BY KANSAS COMMUNITY COLLEGES**

As part of its performance audit of vocational off-campus courses offered by the State's community colleges, Legislative Post Audit compiled an inventory of all off-campus vocational courses taught by Kansas' community colleges in the Fall 1988 semester. This supplement contains the inventory; the actual audit report is a separate volume. Only those courses taught by the community colleges are listed and not any courses taught by the Board of Regents' institutions, private colleges and universities, Washburn University, or any out-of-State schools offering courses in Kansas.

The exact meaning of "off-campus" varies somewhat from school to school. For consistency, we used the following definition: **any vocational course taught for credit off the main, contiguous campus for which no on-campus coursework was required.**

In the Fall 1988 semester, 903 vocational courses were taught off-campus by the State's community colleges. The average class size was about 11.4 students. The table below lists the numbers of courses and enrollments at each college. Beginning on the next page, the off-campus courses are listed. The list is organized by college and arranged by cities in which classes were held.
